

**Lesson 3-**  **Auto Service Technology Level 2****Multiple Choice**

*Identify the choice that best completes the statement or answers the question.*

- \_\_\_\_\_ 1. Technician A says EEPROM is also called flash PROM. Technician B says EEPROM is also called RAM. Who is correct?
- Technician A.
  - Technician B.
  - Both Technician A and Technician B.
  - Neither Technician A nor Technician B.
- \_\_\_\_\_ 2. Technician A says sensor inputs supplied during specified driving conditions are known as parameter identification data (PID). Technician B says sensor inputs supplied during specified driving conditions are known as enabling criteria. Who is correct?
- Technician A.
  - Technician B.
  - Both Technician A and Technician B.
  - Neither Technician A nor Technician B.
- \_\_\_\_\_ 3. Technician A says a “trip” monitor is a diagnostic procedure in which all of the enabling criteria for a “trip” are met. Technician B says a monitor is only performed when the PCM receives specific sensor inputs. Who is correct?
- Technician A.
  - Technician B.
  - Both Technician A and Technician B.
  - Neither Technician A nor Technician B.
- \_\_\_\_\_ 4. Technician A says enabling criteria are diagnostic tests performed at specific time intervals. Technician B says there are no enabling criteria in OBD-II. Who is correct?
- Technician A.
  - Technician B.
  - Both Technician A and Technician B.
  - Neither Technician A nor Technician B.
- \_\_\_\_\_ 5. Technician A says OBD-II systems are designed to ensure accurate monitoring and operation of all emission-related systems and components. Technician B says OBD-II systems are not able to detect emissions related problems caused by the degradation of systems and components. Who is correct?
- Technician A.
  - Technician B.
  - Both Technician A and Technician B.
  - Neither Technician A nor Technician B.
- \_\_\_\_\_ 6. Technician A says a passive diagnostic test can be used to check the performance of a component. Technician B says a passive diagnostic test can be used to deactivate the enabling criteria. Who is correct?
- Technician A.
  - Technician B.
  - Both Technician A and Technician B.
  - Neither Technician A nor Technician B.
