

## STUDENT WELLNESS PROGRAM

The Board directs the Superintendent/designee to develop and maintain a student wellness plan in compliance with Federal law.

The student wellness plan:

1. includes goals for nutrition promotion and education, physical activity and other school-based activities designed to promote student wellness that are developed with consideration of evidence-based strategies and techniques;
2. includes nutrition guidelines for all foods provided, but not sold to students in the District during the school day in order to promote student health and reduce childhood obesity;
3. provides assurance that District guidelines for all food and beverages sold during the school day are, at a minimum, equal to the guidelines issued by the U.S. Department of Agriculture (USDA) and that marketing of foods and beverages on the school campus during the school day is prohibited for foods or beverages that do not meet the nutritional standards established by the District in accordance with USDA regulations and
4. establishes a plan of implementation and evaluation, including designating one or more persons within the District with the responsibility for ensuring that the District is compliant with Federal law.

Development of the student wellness plan must be a collaborative effort between parents, students, food service workers, physical education teachers, school health professionals, administrators, the Board and the public.

The District notifies the public of the wellness plan at least annually. The wellness plan is assessed at least once every three years and the results of the assessment are made available to the public.

*NOTE: In response to the Reauthorization of the Child Nutrition and Women, Infants and Children Act of 2004, districts are required to develop a “school wellness” policy. Components of the program are listed in the policy.*

*On July 29, 2016, the U.S. Department of Agriculture (USDA) Food and Nutrition Service finalized regulations to create a framework and guidelines for locally established written wellness policies. The final rule expands the existing requirements to strengthen policies and increase transparency. The final rule became effective August 29, 2016 and it requires districts to begin developing a revised local wellness policy during the 2016-2017 school year, with full compliance by June 30, 2017.*

*District that allow the marketing of food and beverages to students must have policies that allow marketing and advertising of only those foods and beverages that meet the USDA Smart Snacks in School nutrition standards.*

THIS IS A REQUIRED POLICY.
