

Day 1: Environmental Blizzard Bag – short essay

Write a few paragraphs on one of the following topics:

- Interconnectedness of the things that live in an ecosystem.
- Sustainability (environment)
- The idea of environmental social responsibility
- The intrinsic value argument for environmental preservation.

Requirements:

Define, give examples, how are we dealing with (your topic) today in the world? (USA, other countries), how will your generation combat (your topic) in today's growing population on Earth? Can we do small things locally to help or does it have to be worldwide large scale? References to any statistics or views of other individuals is highly encouraged. Be careful of using information from initial internet search, look for valid resources.

****type or print neatly – if I can't read it, I can't grade it.**

| | Your score | Possible points |
|--|------------|-----------------|
| <i>Define</i> | | 10 |
| <i>Give 2 examples</i> | | 20 |
| <i>How are we dealing with this topic today?</i> | | 10 |
| <i>How will your generation combat this topic in the future?</i> | | 10 |
| <i>What tools/skills/education/experiences do/will you have that this generation doesn't have? (brag on your generation: ideals, skill sets, etc.)</i> | | 10 |
| <i>References</i> | | 10 |
| <i>Neatly written or typed</i> | | 10 |
| <i>Total</i> | | 80 |
