

Transportation

- Partner Districts are required to provide transportation from the high school to the career center.
 - Students must follow their home school guidelines regarding seating and face coverings.
 - Students exiting buses and vehicles must maintain our 6' social distancing requirements; if not, they must wear a face covering during any transit activities.
 - Students showing signs of illness shall not be transported on a bus.
 - Students driving to the career center can have passengers, however, we are encouraging students and parents to keep this at a minimum and wear face coverings while in close surroundings.
